SUMMARY

Java Full Stack Developer with hands-on experience in developing web applications using Java, Spring Boot, REST APIs and MySQL. Strong understanding of OOP, database design and API integration Strong understanding of OOP, database design and API integration.

EDUCATION

Master of Computer Application (MCA)

Kallam Haranadhareddy Institute of technology, Guntur

Currently Pursuing
AP, India

Bachelor of Sciences (B.sc), Electronics

Hindu College of Management, Guntur

2020-2023
AP, India

TECHNICAL SKILLS

Programming Languages: Java

Frontend Technologies: HTML5, CSS3, JavaScript

Backend Technologies: Spring Boot, REST APIs

Database Technologies: MySQL, SQL, Database Design, Joins

Tools & Version Control: GitHub, Eclipse, VS Code, Swagger

Core Concepts: OOP, Data Structures, Collections Framework, Exception Handling, Multithreading, MVC Architecture

PROJECTS

Bike Rental and Management System

Tech Stack: Java, Spring Boot, MySQL

- Designed backend system to manage bike bookings, users, and rental records
- Created RESTful APIs for booking and management operations
- Implemented layered architecture (Controller, Service, Repository)

Online Shopping Application

Tech Stack: Java, Spring Boot, Angular, MySQL

- Developed full-stack e-commerce application with secure authentication
 - Designed RESTful APIs for product and order management
 - Built dynamic frontend using Angular (components, services, routing, Http Client, forms)
 - Implemented CRUD operations with proper exception handling
-

SOFT SKILLS

- Problem Solving & Logical Thinking
- Adaptability to New Technologies
